VOL. 10.

CHEBOYGAN, MICH., THURSDAY, FEBRUARY 26, 1885.

NO. 34

NORTHERN TRIBUNE.

OFFICIAL PAPER OF CHEBOYGAN.

THURSDAY, FEBRUARY 26, 1885.

THE CITY.

Prize Masquerade at rink to-night.

There are glorious nights for sleigh rides, brilliant moon, and not too cold.

Daniel Williams, of St. James, Beaver Island, arrived in town this morning.

Mrs. G. P. Langdon is on the mend and her complete recovery is speedily hoped for.

Geo. F. Reynolds, cashier of the First National Bank has been spending the week in Detroit.

H. A. Blake is making a new piston and a new valve for the propeller Messenger's engine.

Edward Brand, of Duncean City, died last Saturday of Bright's disease, and was buried Monday.

Daniel Albrant's home is made brighter by the presence of a brand new girl baby, born Wednesday morning.

Sheriff Pauquin, of Mackinac county, came over from St. Ignace yesterday on business. He reports court in session with Judge Steere presiding.

During Lent in addition to the regular Sunday services there will be served every Wednesday and Friday evenings in St. Mary's Catholic church.

Dr. D. W. Berdan, assisted by Dr. T. A. Perrin, yesterday afternoon amputated the toes of Sammy Clark's right foot, leaving as good a stump as possible.

A. F. McArthur, son of Archibald McArthur, and his friend, Charles Clark, who had been visiting for some weeks in Cheboygan, left for their home in Chicago last Tuesday.

C. A. Gallagher and Editor Forsyth left Tuesday morning for Bay City to represent the Democracy of Cheboygan county in the state convention, which was called for yesterday.

It is time the candidates for the various village offices were being trotted out so that they may be looked over and an opportunity given the electors to make up their minds which to support.

The Michigan Central railroad company is getting out a 10,000 edition of a pamphlet setting forth the attractiveness of Michigan as a summer resort and its great prospects in a business way.

These Companies No. 1 and 2 give a sort of house warming in their hall recently fitted up in neat style, this evening. Special invitations have been extended the officials of the village to be present.

Sammy Clark, who had the misfortune to be severely frozen while crossing the straits, arrived in Cheboygan Thursday and is at the Sanitarium. He will lose a portion of one foot. His face and ears were also badly frozen.

Capt. Charles E. Kirtland left Tuesday morning for Ludington. The amelioration of the condition of the weather made him desirous of being on hand in case it moderated enough to enable him to transfer the F. & P. M. steamer No. 1 to Milwaukee.

Some graceless scamp or scamps made a raid on John E. Clark's clothes line last Monday night. If they were actually suffering for the clothes they stole they need not have committed a theft to procure them, as an application to the Ladies' Relief Society would have provided for their needs without the commission of crime.

Messrs. Meloney Brothers are making preparations for putting in a machine for manufacturing ginger ale and other temperance drinks, just as soon as navigation opens. They have secured the services of a gentleman who has a well established reputation for making the very best. They will have a capacity for manufacturing several hundred cases per day.

The Detroit Post under the new management has become a worthy representative of the metropolis of the state. Manager Stickney has proven equal to the herculean task of lifting the Post from the rut in which it had run so long and placing it in the front rank of journalism in the west. He has infused some life into it, and it is now acknowledged to be in the van in the way of enterprise and news.

Go to the masquerade to-night.

O. M. Clement went to Detroit Monday morning.

Fresh fish at Sammons & Corliss's fish market at four cents per pound.

The soft weather this week is raising the ice blockade at the different Lake Michigan ports.

We are glad to state that Medard Medivier is considerably better, and is now able to be up a portion of the time.

We are indebted to Senator Palmer for a copy of his speech, delivered in the Senate February 6th, on "Universal Suffrage."

Out of the fifty mornings of this year the thermometer for forty mornings has ranged below zero, a greater portion of the time way below.

H. A. Blake and Ed Adams returned from Charlevoix Saturday. Their evidence was wanted in a suit against the steamer M. W. Wright, formerly of Petoskey.

Dr. T. A. Perrin last night received by express the wolf he sent some time since to Collins the Detroit taxidermist to mount for him. Even though dead it is a ferocious looking brute.

The Michigan Central is bringing in board timber that has been manufactured along their road this winter and unloading on the lee of the bay, back of their dock, to be ready for shipment when navigation opens.

John F., Wm. F. and Reynold McDonald did not reach Bay City in time to find their sister alive, she having passed away the morning they started down. They remained until after her funeral, returning home Thursday night.

There is a rumor that another steamer will be put on the route between Chicago and Cheboygan this coming season. We understand it is to be the propeller St. Joseph, a new steamer built a couple of years since. She is about the same model as the Messenger.

We hear but little talk about candidates for village and town officers this spring. The standing candidates for office of the Democracy are all either after the postoffice or custom house. We do not know what is the matter with the self-sacrificing Republicans.

W. G. Boggs says that eleven-pound boy is just "boss." Will was absent when the boy was born, but a telegram from Dr. T. A. Perrin hastened his return home, and from the way he walks the street one would surmise he owned the town, but it is all owing to the boy.

Dr. Jessop, who was in town Monday, reports that Mackinac Island has just passed through a wood famine on account of the going being so bad that wood could not be hauled. He left here Monday evening for Soney, where he was called by telegram to attend Mrs. Millian.

The physicians of Cheboygan met at Dr. A. M. Gerow's office last Thursday evening to consider the propriety of an effort to organize a Northern Michigan Medical association. All the regular practitioners were present and the matter was discussed. The result was the appointment of a committee to solicit the co-operation of the doctors of Northern Michigan, and the meeting adjourned for two weeks, March 5th, to meet at same place.

The Detroit Evening Journal continues right along on the road to success, and this right in the face of the most strenuous and unfair opposition. It is bound to succeed, for it is conducted in an able manner, is courteous in its treatment of all subjects and fully up with the times as a newspaper. Recent changes have been made in its editorial staff, additional telegraph facilities secured and the promise is that as good as it has been in the past in the future it will be still better.

Our citizens should not forget the exercises at the school to-morrow afternoon. Unusual preparations have been made to have the occasion one of more than ordinary interest. It being the anniversary of the birth of the poet Longfellow, it will partake of exercises largely in honor of the commemoration of that event. Miss Hattie Hamilton is to have a chalk sketch on the blackboard of Longfellow's home. His "Song of Life" will be sung and several of his poems recited. "The Echo" will be full of interest, as usual, the editors being Misses Zaida Adams and Dora Ramsay. Let there be a good turn out of the patrons of the school.

George G. Wharton has recovered and is again attending to business.

W. M. Carpenter, agent of the G. R. & I. railroad at Mackinaw City, was in town yesterday.

Miss Jennie Burnett takes the position of cashier at W. & A. McArthur's store in place of Mrs. Martin, who resigned.

Charles Martin has moved to Mrs. Brannack's house on south Huron street. Next week he enters into employment with Wm. S. Smith.

We understand two dances will be given next week for the benefit of Sammy Clark. One at the Fountain House Monday night and a masquerade at Zorns Hall on Tuesday evening.

Rev. J. M. Curtis, rector of St. James, was taken ill while officiating Sunday morning and consequently held no services in the evening. We are glad to announce that he has fully recovered and is again in his usual health.

The replevin suit in the case of Packard's vs. Sylvester Neelen and others was to come off in Detroit yesterday. Messrs Packards and Watts S. Humphrey, their attorney, left for Detroit Tuesday morning.

Yesterday was the last day for introducing bills in the Legislature. It was thought that the record of all former Legislatures would be beaten, and that a total of not less than a thousand bills would be introduced.

J. P. Sutton returned Saturday night. He visited his mother in Detroit at the residence of her daughter, Mrs. J. W. Linderman, and her friends will be glad to learn that she was enjoying excellent health. Mr. and Mrs. Linderman are in good health and prospering.

Miss Wood who had been visiting with her cousin Mrs. A. R. Thayer for a couple of months received a telegram announcing the serious illness of her father, and accompanied by her Uncle, Mr. Allen, Mrs. Thayer's father, left Monday for home. Mrs. Thayer received word Monday that her Uncle was dead.

Owing to an impression that Rev. A. W. Westgate had not returned and that there would be no services the attendance at the Congregational church Sunday morning was rather slim. Mr. Westgate had arrived home Saturday evening and preached just as though the house was filled. The attendance in the evening was much larger.

Wm. E. Maultby and wife returned from Detroit last week, the physician there not giving them much encouragement as to Mrs. Maultby's condition. Mr. Maultby sent over to Mackinac for Dr. Jessop, who came over Monday and after a thorough examination gave it as his opinion that there were very strong grounds for hoping her disease would yield to proper treatment.

Wm. Hess returned from Manistee yesterday morning. We regret to say that he was so taken with the prospects for a successful business, in his line, at that place that he thinks of moving his shop to that city sometime during the coming season. He reports the ice piled up on the shore there to a height of seventy-five feet. Thirteen of the crew of the steamer Ludington came ashore on the ice while he was in Manistee.

A dastardly attempt was made last Friday night to set fire to James O'Connor's sewing machine establishment. Kerosene oil was poured under the front door and set on fire. Fortunately the oil burned without setting the building on fire. The bottom of the door was scorched and the floor shows the effect of the burning oil for three or four feet from the door. Have we a fire bug in our midst? Had the effort proved successful a most disastrous fire would have been the result, as that locality is thickly built up with frame buildings and all would in all probability have been burned.

On the occasion of the fourth anniversary of the marriage of Mr. and Mrs. Louis H. Weigand, the night was so stormy that many who were invited could not attend. To make amends for this misfortune a surprise party was gotten up composed of those who had been invited to the anniversary and last Friday evening a raid was made upon the home of Captain Kirtland. The surprise was not so complete as was desired, Mr. and Mrs. Weigand getting wind of it and the party upon their arrival found their little hosts ready to give them a hearty reception. A most enjoyable evening was spent none seeming to enjoy it more than the members of the family.

What's the matter with going to the masquerade at the rink, to-night.

The Ministers Monday meeting at residence of Rev. A. W. Westgate next Monday.

We would call attention to the notice of Village Clerk Hunt of the approaching village election.

Hose company No. 1 meets to-night for the election of officers. A full attendance of the members is desired.

Everybody has been delighted with the weather this week, and say they can stand considerable of the same kind of winter.

M. A. True printing company at Grand Rapids has sued the Greenback state committee for \$400 for printing done during the late campaign.

We do not hear of any of our Democratic friends in Cheboygan county making any preparations for attending the inauguration of President Cleveland next week.

President Arthur has issued a proclamation exempting vessels trading between Canadian ports and the United States from paying tonnage dues after February 2d, 1885.

Hon. Jacob Walton started this morning for Ann Arbor. We are inclined to think he will visit Lansing before he returns and do a little lobbying against the proposed city charter.

Representative Hampton and Senator Henry are both on the apportionment committee, for re-districting the state. The committee consists of one member from each Congressional district in each house.

The soft weather this week induced many to excavate in order to find their sidewalks. It took considerable muscle, but perseverance wrought wonders, and the result is clear sidewalks in many places.

The first step towards the organization of the new county from Presque Isle and Cheboygan counties territory was the introduction of a bill in the House Tuesday for detaching territory from Presque Isle county.

There is considerable shooting at ducks on the river. After the terrible accident resulting in the death of young Stewart, parties should be very careful to see that there was no person within possible range of a glancing ball before shooting.

The board of registration for the village will meet at the council room a week from Saturday and if you want to have a say in the matter as to who shall be village officers, if your name is not on the register you want to make it your business to see that it gets on.

Another boy undertook to catch a duck yesterday afternoon by chasing it on the ice. He got a duck-ling - and a cold one at that - getting in the river opposite Brannack's dock. The water was only up to his shoulders, and he succeeded in getting out without assistance.

Will Clark, O. M. Clement's efficient salesman, leaves Cheboygan next week for Colon, Mich., his former home, where he will hereafter reside. The change is made on account of the health of Mr. Clark's mother, who has been feeble for some time. Will and his estimable wife and mother have made many friends here who will hear with regret of their intended departure.

Mr. and Mrs. John M. Dowling came near being asphyxiated Saturday night from gas from their coal stove. Just before retiring Saturday night Mr. Dowling examined the reservoir to see if there was sufficient coal in it to last through the night, and in replacing the cover he left a small crack and from this the gas escaped. Fortunately he was aroused by the ill effects before they were entirely overcome. Both, however, suffered considerably from the effects during Sunday and Monday.

Representative Hampton presented the petition favoring the city charter last Thursday. It was referred to the Committee on Municipal Corporations. Representative Mason, on the same day, presented remonstrances of the township of Duncean and 7 citizens of that town, the township board of Inverness and 45 others, and the township board of Beauregard and 72 others, all against the incorporation. These petitions were referred to the same committee. Mr. Hampton also introduced the bill to detach a portion of township 33 north, range 1 west, from Benton and attach the same to Duncean. It was read first and second time and referred to Committee on Towns and Counties.

A. L. FEXER,
JEWELER,
Opposite
THE POSTOFFICE.

L. T. Limpert,
Watchmaker!
AND JEWELER.
